Door Operations

To unlock (from inside or outside)

- Turn key to unlock the deadbolt.
- Push the lever down to disengage the hooks, rollers and latch.
- Open the door.

To lock (From inside or outside)

Inward Opening:

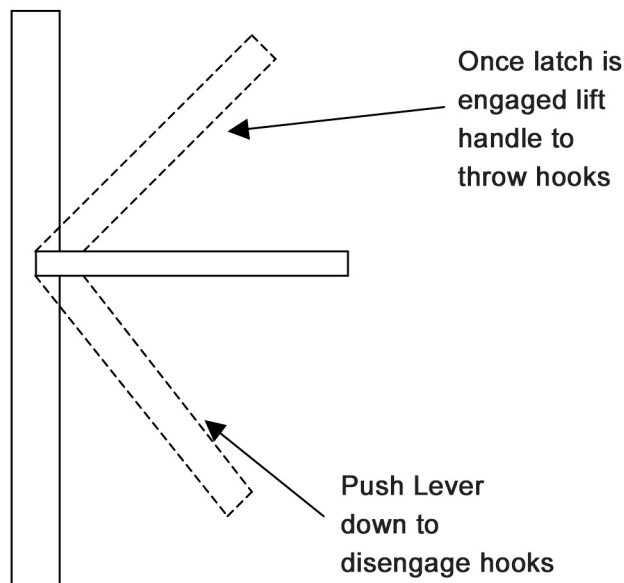

- Close the door to engage the latch
- Apply pressure to door above handle as you lift the lever (handle) up to throw the hooks or rollers to the locked position.

• Please Note:

There will be a little resistance due to the gaskets compressing.

Outward Opening:

- Close the door to engage the latch
- Do not pull the door and lift the lever at the same time, wait till the latch is engaged before you lift the lever.
- Turn the key to deadlock
