

# AJ&D Chapelhow (Cliburn) Ltd

Crafting fine timber windows and doors since 1961

---

## To all contractors

### Important information:

- Water based paints have been used on the product now being delivered to yourselves. This type of paint takes longer to harden than traditional paints.
- Due to the make up of the paint it is necessary to ensure that **none of the painted surfaces touch each other** prior to fitting.
- Any spacers used **must be made from a material which will not adhere to the paint surface** (e.g. polystyrene within a polystyrene sleeve).
- These windows and doors **MUST** be stored vertically.
- When fitting please make sure that the doors and windows are set **PLUMB, LEVEL** and **SQUARE** in all directions.
- The casing legs **MUST** be straight.
